Weight of Freight Guide

The following information may be helpful when ordering rails and components.

Please note:

- Freight charges attract GST
- Freight is calculated on individual cartons, not on total weight
- Freight charges are based on specific location ie. Postcode
- Maximum carton weight is 25Kg
- Packages will be bundled to provide the most economical freight charges

Large Cartons	Weight
30 x 1500 tubes fit tightly in one carton	24Kg
25 x 1500 tubes plus 15 components	20Kg
20 x 1500 tubes plus 30 components	20Kg
15 x 1500 tubes plus 50 components	20Kg
10 x 1500 tubes plus 70 components	20Kg

Small Cartons	Weight
20 x 1500 tubes fit tightly in one carton	15Kg
15 x 1500 tubes plus 20 components	15Kg
10 x 1500 tubes plus 35 components	15Kg

Components Only	Weight
110 components (includes a mix of products)	20Kg
80 components	15Kg
50 components	10Kg
